NOTES

READ BEFORE MAKING

Dimensions in feet and inches. Do not scale.
Proportions taken from a film-still reference;
leaf size, opening and thickness are ASSUMED.
Knob centre lands 3'-1⅝" above the floor — normal height.
D1 — MAIN DOOR, 7 ft 7 in × 3 ft.
Set out on the panel square. The 2 ft 6 leaf gives a
1'-10½" panel; the upper panel is two of those squares
(3'-8¼"), the lower is one (1'-10⅛"). Rails follow: top 3¾",
lock 9", bottom 11¾". Knob centre 3'-2½" above the floor.
Both widths take the identical rails and mouldings, so
only the panel width changes — here 10¼" per panel.
Solid teak frame. Veneer and polish per
Materials; polish to match the teak desk.
Casing: 2 in lining plus 4 in moulding over it, so the
moulding head sits 6" above the leaf.
See AST-DR-011 (option A) and AST-DR-012 (option B).
Hinges and lock not yet designed.
