NOTES

REVISION 1

After the owner's photo (7 Oct): a shaped serpentine top with a moulded edge and eased front corners - wood, no stone (owner); a deep apron with one drawer, its front in burl, a brass rosette knob in the middle; a carved console at each corner; tall slim cabriole legs with a bead down the front edge, ending in a scroll toe. Two the same. 1/2" x 1/2" in and 1" in high - the photo's table is taller; the proportions are kept, the height is set by the bed (2 in above the mattress). The back legs turn their knees sideways only, so the table stands tight to the parchment. Top and legs polished dark, as the photo; apron and drawer in the room's burl. Finish to confirm with the bed's.

NOTES

REVISION 1

After the owner's photo (7 Oct): a shaped serpentine top with a moulded edge and eared front corners — wood, no stone (owner); a deep apron with one drawer, its front in burl, a brass rosette knob in the middle; a carved console at each corner; tall slim cabriole legs with a bead down the front edge, ending in a scroll toe. Two the same.

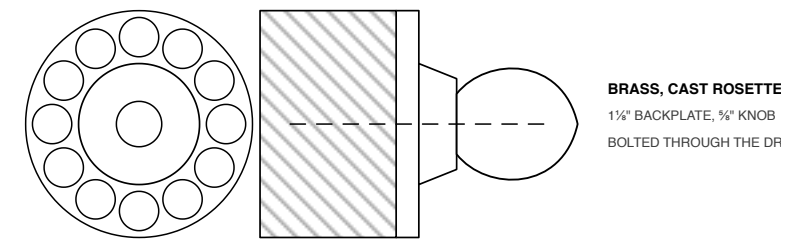

$\frac{5}{8}$ " x $\frac{1}{2}$ " in and 1" in high — the photo's table is taller; its proportions are kept, the height is set by the bed (3 in above the mattress). The back legs turn their knees sideways only, so the table stands tight to the parchment.

Top and legs polished dark, as the photo; apron and drawer in the room's burl. Finish to confirm with the bed's.
