

DRESSING DOOR

OPTION B · D2 · 2 FT 6 · THE CARVED HEAD

20

NOTES

OPTION B · REVISION 2

This is the alternative to AST-DR-011. Below the corbels the two are the same casing: a 2 in lining with a 4 in reeded moulding outside it, a plinth block at the foot, the same leaf.

What changes is the head. Option A closes the corner with a moulded square block. Option B carries it on a carved corbel and lets the architrave, scallops and frieze die into it.

MAIN AND BATHROOM

D1 3 FT · D3 2 FT 6 · PLAIN CASING

6-10

Each corbel is one piece, standing 9/16" proud of the casing on the wall side with a serpentine edge: a palmette under a small cap, eleven chevrons on a spine, and a shield knot woven through a lozenge at the foot. Dressing door only — the others go plain.

The crown lands at 8'-9 1/4" — 3 in higher than Option A — leaving about 4 in of wall to the ceiling.
