NOTES

CONFIRMED

CONFIRMED by the owner: wings at 45°, and the whole frame – wings angled – inside 3 ft 6 in across (the red dashed box). All three panels 9 ft tall, level with the wardrobes.

FINAL: centre glass 2 ft 0 in; the wings take everything the 3 ft 6 in frame has left at 45° — about 7½ in of glass each. Only two things would give bigger wings: a slimmer frame (¾ in frame → about 9½ in), or a steeper angle (60° → about 11½ in).

The wings need a fixed stop at 45°. Opened any flatter, the frame gets wider than 3 ft 6

Hinges: two continuous piano hinges on the back, one at each joint, in the frame finish

Free-standing, centred on the far wall. 7½ in of floor either side, clear of the folding end-bay doors, which come out only about 3 in at this depth. Frame finish still open.
