NOTES

REVISION 8

The lining is 2 in on the face. The moulding lays 4 in outside it,
all round — so the jambs are 6 in wide, and over the opening the
moulding head sits 6 in ABOVE the leaf, not on top of it.

The jambs are reeded. Across the head the moulding is STEPPED,
not reeded — the reference has no reeding there.

A plinth block takes each jamb down over the marble skirting.
