

PLAN

CUT THROUGH THE UPPER DRAWERS · THE PARTITION AT THE TOP, THE BED BELOW · TOP AND PLINTH DASHED

FRONT

SEEN FROM THE BED · THE GLASS BROKEN OFF ABOVE

NOTES

REVISION 1

From the owner's sketch. The run of 4 x 2 drawers that followed the partition's curve could not open at its curved ends. Now the unit is a pill: a straight front across the middle, a quarter-round at each end wrapping back to the partition's tip, and nothing that moves is curved.

Four equal bays, 17 1/2 in: two stacks of two drawers in the middle, and at each end one cabinet two drawers tall behind a flat door (owner).

Doors hinge on the drawer side, so they open away from the round ends.

ASSUMED

TELL ME IF ANY OF THESE IS WRONG

Height 1 ft 5 1/4 in and depth 1 ft 3 1/4 in, as the last run.

The same veneer as before: the 9292 burl in the Dark Diva colour, the grain running on across all four bays.

The slim brass bar kept: an upright one on each door.

Every edge eased 1/4"; the top a full bullnose.

Concealed soft-close hinges; one shelf in each cabinet.

TO DECIDE

Fronfs: eased edges as drawn, or rounder — each front a small pill of its own?

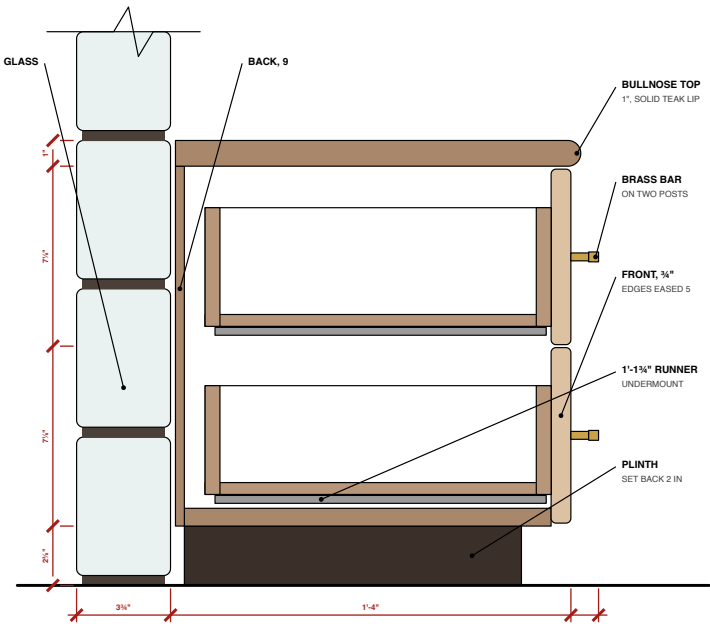

Pulls: the brass bar, or push-to-open with none.

With a drawer out, 1 ft 4 in is left to the bed's

foot — fine to pass, tight to kneel at.
